Technical Skills

- App Development with Flutter
- Proficiency in Programming Languages: C++, Java, Python, Dart, Data Structures & Algorithms (DSA)
- Debugging and Bug Fixing in Applications
- Database Management with SQL Server Management Studio (SSMS) and Firebase
- Networking Basics using Cisco Packet Tracer and Software Quality Assurance
- Familiarity with Tools: MATLAB, Android Studio, Visual Studio, MySQL Server, Proteus, PyCharm, MS Word, Excel, PowerPoint

Soft Skills

- Strong Communication and Interpersonal Skills, effective teamwork and Collaboration
- Leadership and Project Management Abilities
- Critical Thinking and Problem-Solving. Adaptability to Environments New Tools
- Time Management and Task Prioritization

Certifications

- **Introduction to Flutter** – Simplilearn
- **Prompt Engineering with GitHub Copilot** – Simplilearn Partner with Microsoft
- **ChatGPT 101**– Simplilearn

PROFILE

Motivated and detail-oriented professional with a background in **Information Engineering Technology**, skilled in app development, debugging, and project management. Strong problem-solving abilities with a passion for delivering innovative and efficient solutions. Experienced in identifying technical issues and implementing effective resolutions. Always eager to grow, adapt, and contribute in dynamic and fast-paced environments, driven by innovation and excellence.

EXPERIENCE

Freelancer - Fiverr

2021 - Present

University Projects

Internship (ongoing): Flutter Developer & Quality Assurance at IVY Interactive Solutions Ltd.

Delivered multiple client projects with expertise in bug fixing, code optimization, and feature implementation. Specialized in resolving Java errors, enhancing code quality, and ensuring flawless execution. Successfully completed academic and technical projects including an Airline Reservation System (Java & C++), Airport Management System (DSA – Java), and a Small Office/Home Office (SOHO) network design using Cisco Packet Tracer.

Final Year Project – MY NSU App

Designed and developed the official university application 'MY NSU' using Flutter. Integrated features such as LMS/UMS access, SGPA & CGPA calculators, 360° campus map, chatbot with Dialogflow, smart calendar, and more. Used Firebase as backend for real-time database and real time notification.

EDUCATION

- Bachelors in Information Engineering Technology
- From ([National Skills University Islamabad](#)) & CGPA: 3.57
- Army Public College, ICS [2020-2022]
- F.G Sir Syed Secondary School, [2017, 2020]

Interest

Problem Solving: Passionate about solving complex challenges through coding and critical thinking
